Five themes, one page

Theme	Look for	Test	Optional label
N Need **What must be in place?**	"I have to…", "I can't… without…", "there's nowhere to…", "otherwise I fall behind"	If it were missing, would they be blocked, or just annoyed? Annoyed means preference.	None
G Goal **What do they want to achieve?**	"I want to…", "I'm trying to…", "so that I can…", "I'd like to be able to…"	Can you finish "They want to achieve…"?	Practical · Social · Emotional
M Motivation **Why do they do it?**	"because…", "that's why I…", "I get stressed when…", "I'm afraid of missing out"	Does the quote answer "why?"	Intrinsic (inside) · Extrinsic (outside)
B Behaviour **What do they actually do?**	"I usually…", "last week I…", "first I…, then I…", "I always…"	Could you film it?	Habit · Pain point · Workaround
C Context **Where, who with, when?**	"in the canteen", "with friends", "between classes", "during exam week"	Is it the setting, not the action or the wish?	Physical · Social · Temporal

☆ Surprised? Star it

If a quote surprises you or fits none of the five themes, add a star. Do not force it into a theme. Starred quotes matter most in class.

Two codes in one quote

Highlight each part in its own colour. "45 minutes between classes" is context. "I need food that's fast" is a need.

A wish is not behaviour

"I'd like to go three times a week" is a goal. "Last week I went once" is behaviour. A general claim needs a specific example to check it.

Bring to class: your coded transcripts, starred quotes marked · English versions of your sticky-note quotes if you interviewed in Dutch · a reference for every quote (participant and timestamp, for example P3, 04:32).
